# Chemical Equation

Methane combusts in the presence of oxygen creating carbon dioxide and water vapor.

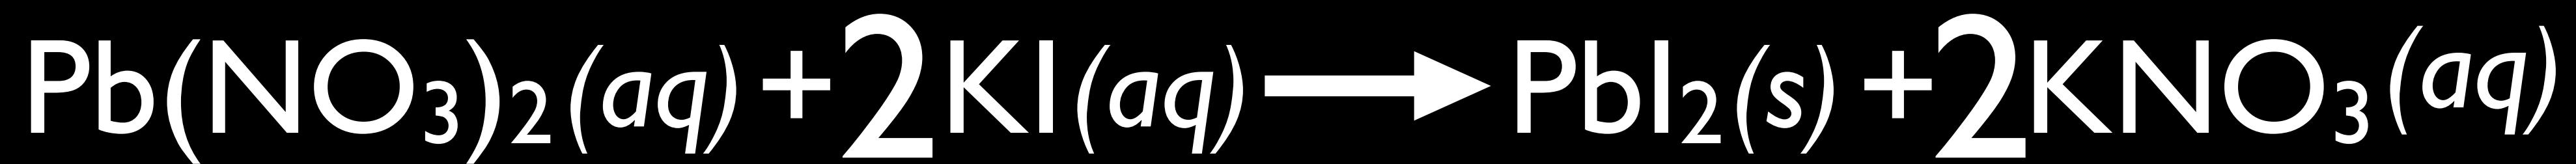

**Molecular Equation**

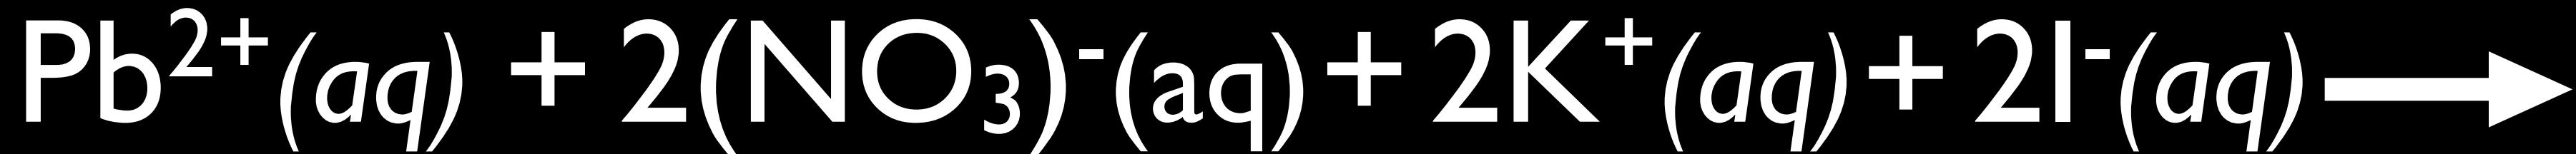

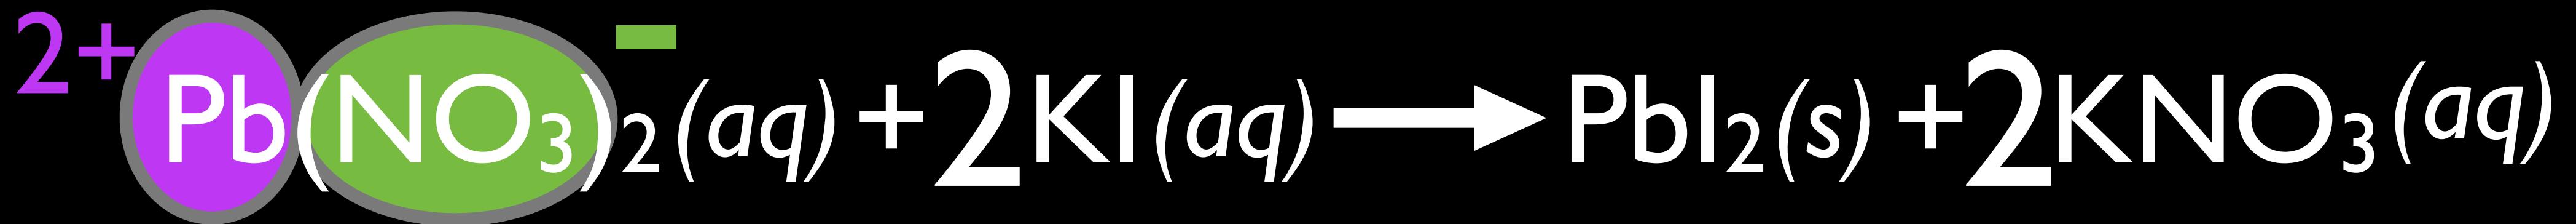

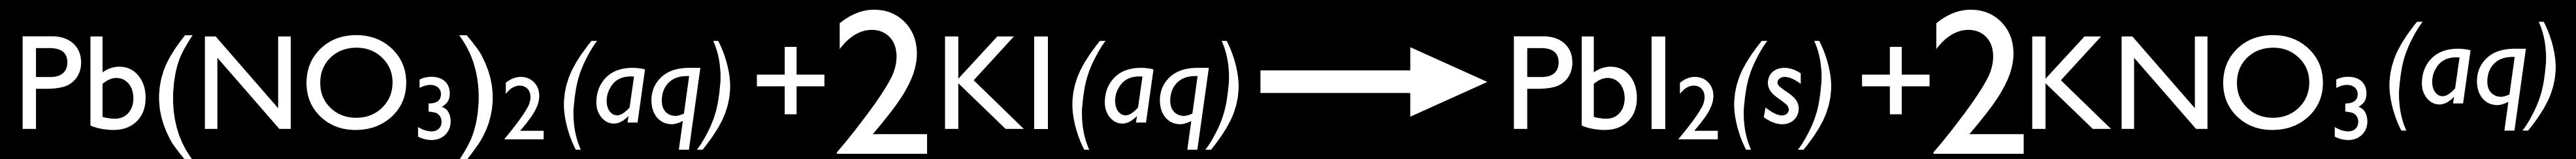

When a solution of lead nitrate is added to a solution of potassium iodide it produces a yellow precipitate of lead iodide that settles to the bottom of the beaker.

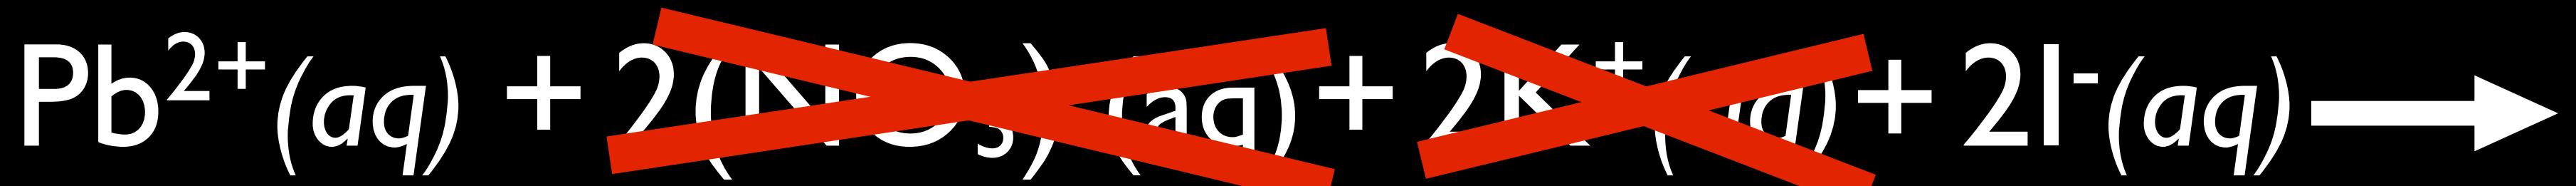

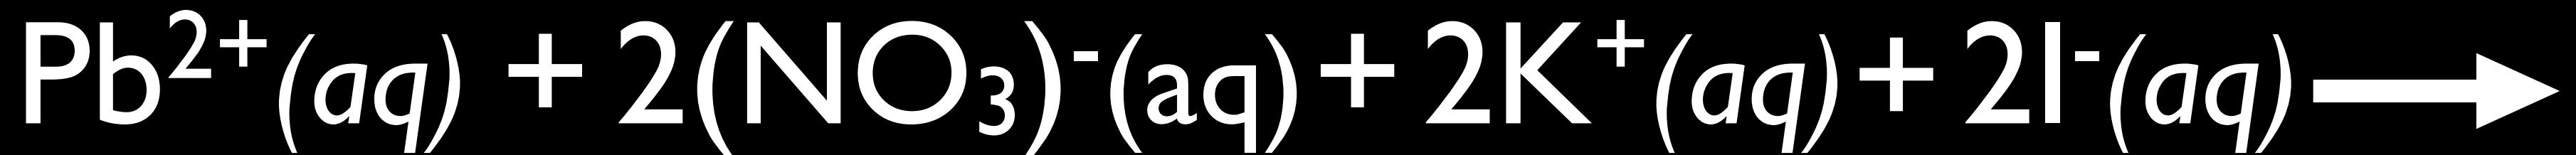

When a solution of lead nitrate is added to a solution of potassium iodide it produces a yellow precipitate of lead iodide that settles to the bottom of the beaker.

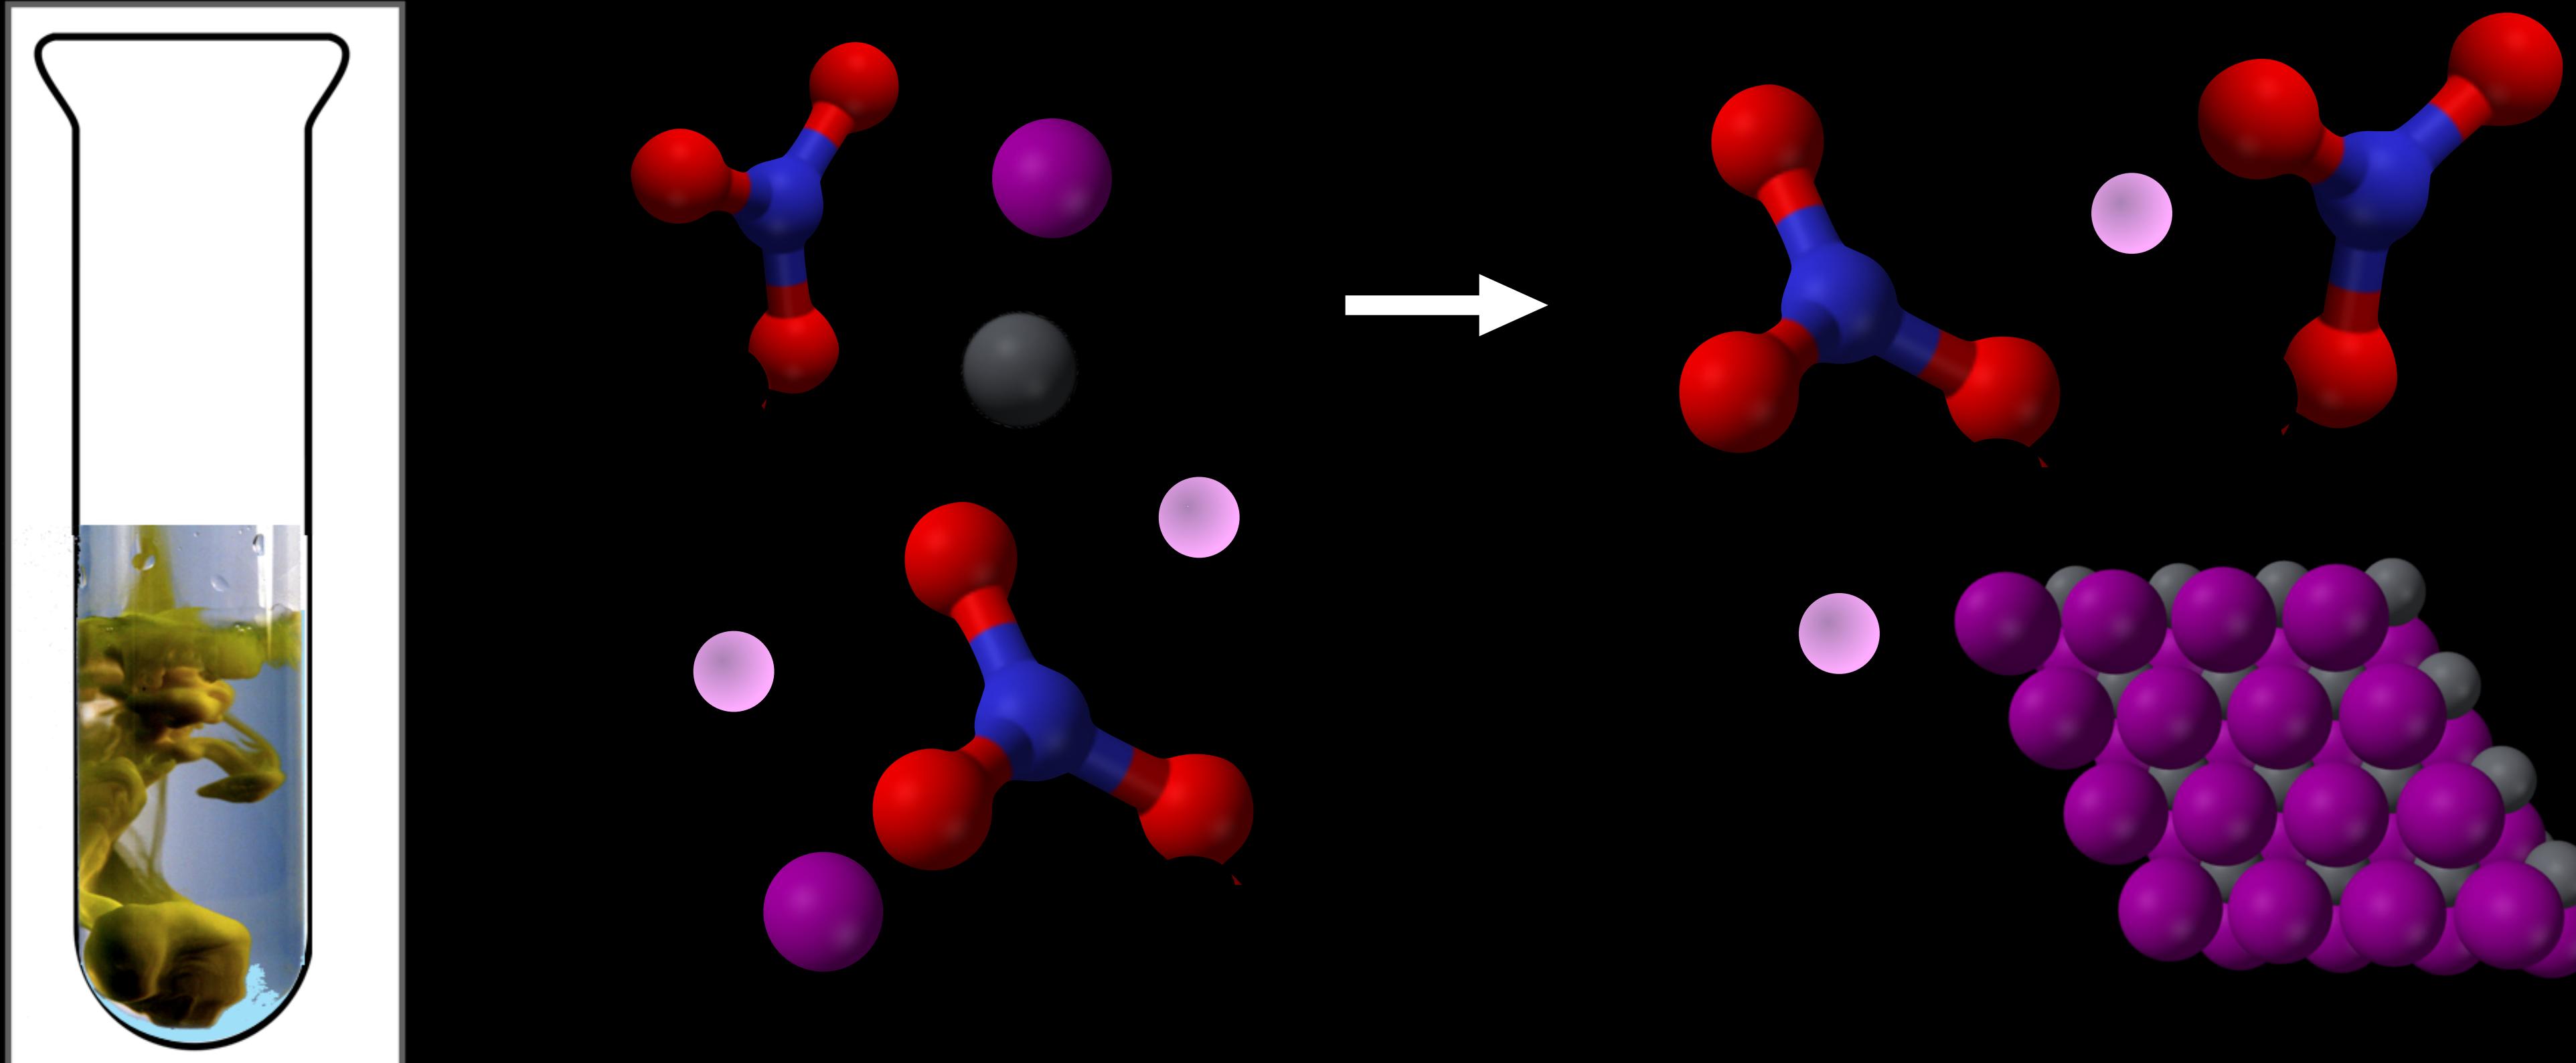

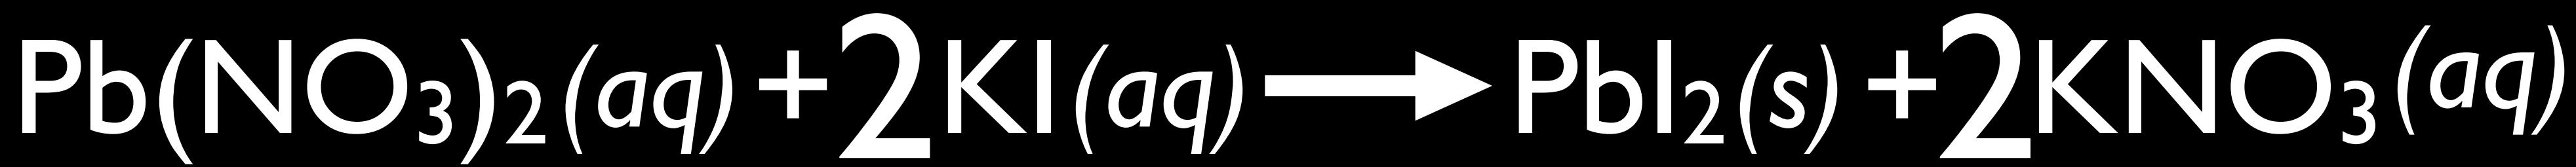

Molecular Equation

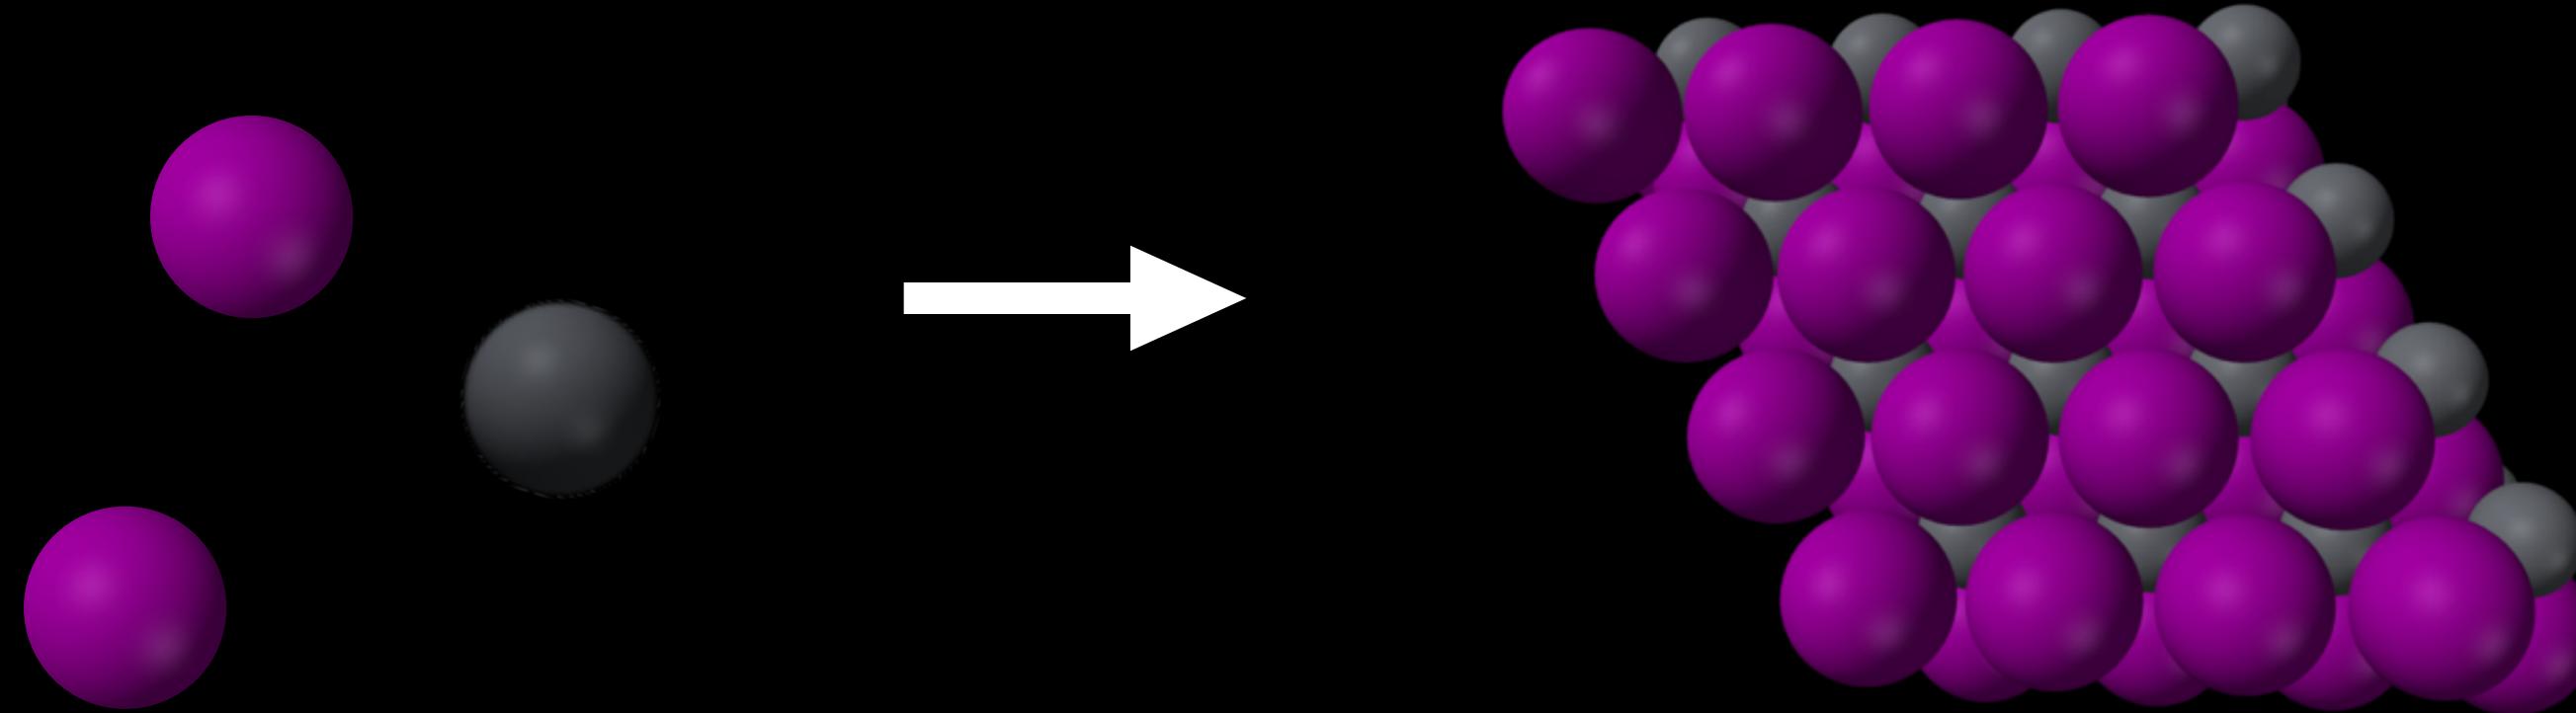

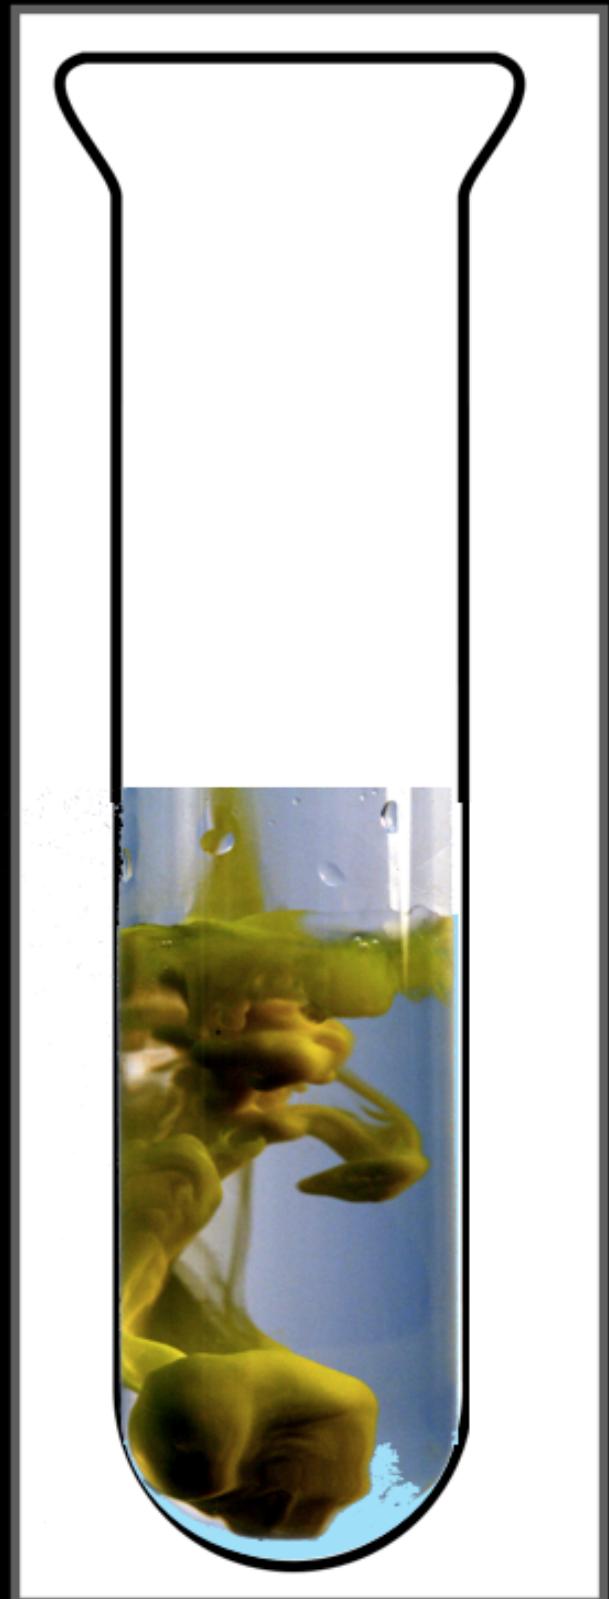

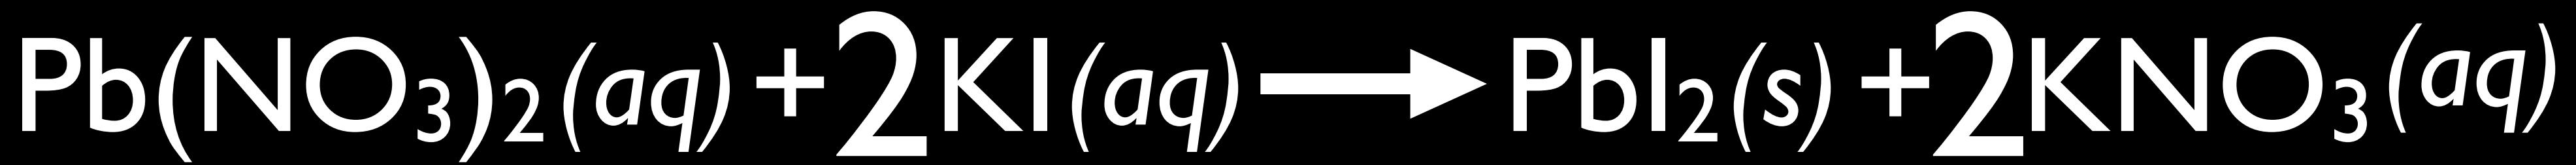

Ionic Equation

Net Ionic Equation

Ionic Equation

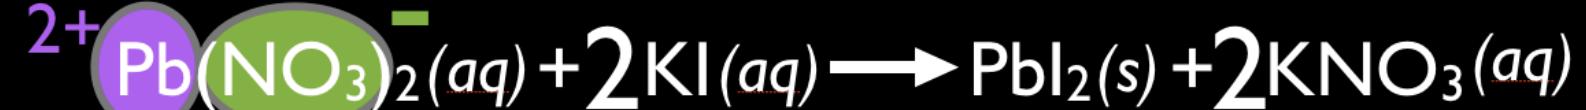

Net Ionic Equation

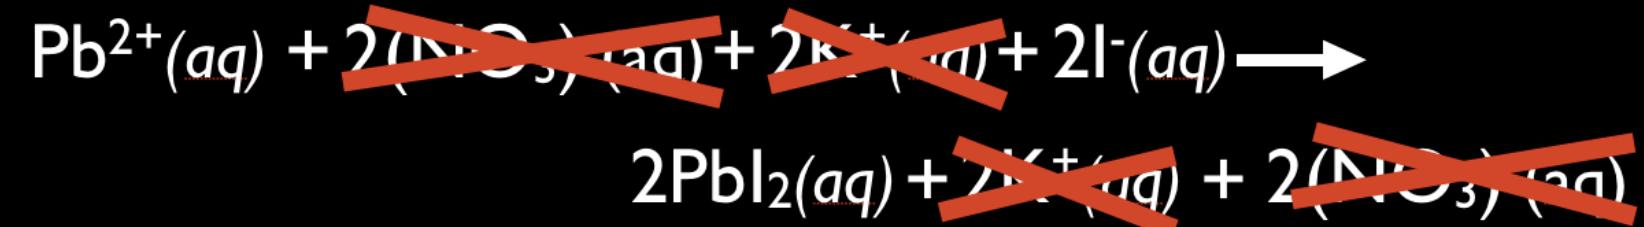

# Did you learn?

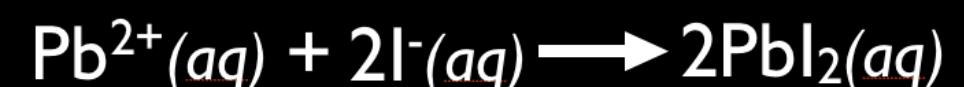

When a solution of lead nitrate is added to a solution of potassium iodide, a white precipitate of lead iodide that settles to the bottom of the beaker.

**Ionic Equation**

**Net Ionic Equation**

To translate an observed chemical change into a balanced equation of the correct type.
